## YACHTSMEN ARE INVITED TO THE BILOXI RACES

An invitation has been extended the Pensacola Yacht Club by the Biloxi Yacht Club for the local yachtsmen to take part in the annual regatta to be held at Biloxi on July 4.

It is probable that a number of members of the yacht club will go to Biloxi to take part in the events.

Instead of holding the long distance regatta from New Orleans to Pensacola this year, it will be run from New Orleans to Biloxi. This changes a custom of many years standing, and will probably result in having no regatta in Pensacola this year.

## HICKORY CAMP IS BOND SUBSCRIBER

At a meeting of Hickory Camp No. 21, W. O. W., which took place this week, a resolution was introduced, providing for the purchase of \$1,000 worth of Liberty Loan bonds, and a committee, to which this important duty was entrusted, completed the negotiations for that amount yesterday. The camp pays cash for the securities.

This is one of the largest subscriptions taken by a single camp of this order yet reported, and members are proud of the fact that their camp holds such distinction.

In addition to the subscription taken in the name of the camp, quite a number of good "choppers," whose names are on the membership rolls of Hickory Camp proudly wear a button, denoting the fact that they are bond holders.

### RID OF A LINGERING COUGH.

Cold weather persisted so late this year that many more persons have colds than ever before at this season. You can get relief from hacking, hacking coughs, from wheezing, sneezing, breathing from raw, sore throat and tight chest. W. G. Glazier, Bentonville, Ark., writes: "I can recommend Foley's Honey and Tar Compound. I used it for a cough that I had for years and was said to have consumption, but it cured me." Contains no opiates. Children like it. D'Alemberte's Pharmacy.—Adv.

## Four Small Children Kill Their Father

BOY PULLS TRIGGER WHILE  
SISTER HOLD GUN AS  
FATHER SLEEPS.

YOUNGSTERS PLOT FOUR DAYS  
AND IN COURT ADMIT  
THEIR CRIME.

Staff Special.

Durant, Okla., June 15.—Scientists are puzzling over the case of the four Wilkerson children, who murdered their father, after conspiring to kill him in the cold-blooded fashion of professional criminals.

Not in decades has such an astounding murder been brought before criminologists, a murder which every one of the four children has admitted in court, and which none seems to rue.

For four days they went over the plans of the killing. Three times the two younger children, who actually committed the deed, ran away from their victim frightened. But, urged ahead by the older conspirators, the younger children returned the fourth time and completed the crime. The oldest child is 13-year-old Bessie. Next comes Jack, 12, then Ruby, 10, and the youngest, Otto, 8.

R. L. Wilkerson, the father, a

farmer, had often cursed them, the children told County Judge Paulin. Their mother had died last January. When Wilkerson whipped Bessie, the children planned the murder.

With the utmost unconcern, the children showed the court how they committed the awful deed. While their father slept, the children stole up to him for the fourth time. Little Otto, the youngest, had his finger at the trigger of a shotgun. Ruby pointed the gun to the man's head, and the other two urged them on. Otto pulled the trigger.

Judge Paulin and others interested in child welfare were astounded by the calmness of the young murderers. He cannot explain it even now.

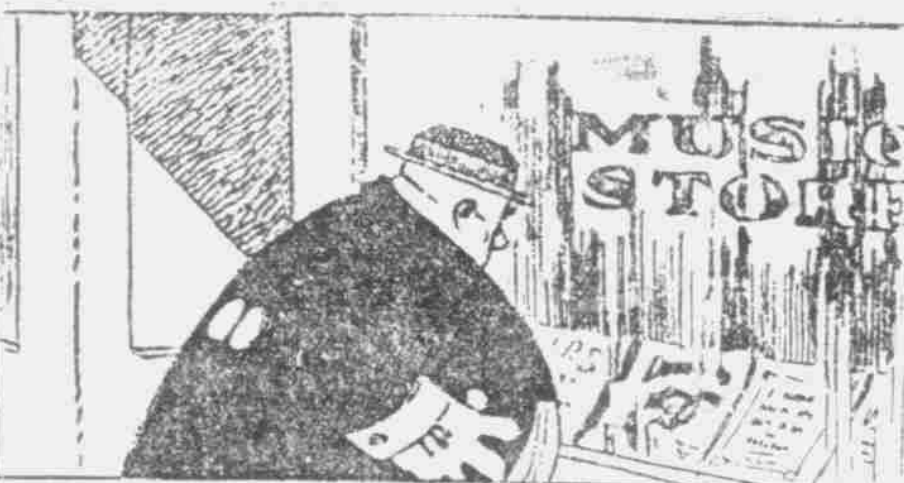

The boys are now in the training school of the state reformatory at Pauls Valley, and the girls were sent to the state school for girls at Oklahoma City.

The Test of Time.  
Say what you will, time tries all things, only the best survive. Chamberlain's Colic and Diarrhoea Remedy has been in use for more than forty years. Many millions of bottles have been sold and used during this time. It has stood the test of time because it can always be depended upon.—adv

## COMMISSIONERS TO EXTEND TIME FOR PAYING OF TAXES

At a special meeting of the board of city commissioners, which took place in the office of Mayor Johnson at 4 o'clock yesterday afternoon, it was decided, in the passage of an ordinance which had been read twice at a former meeting, to extend the time for the payment of taxes. The ordinance specifies that tax payers are granted an extension of forty-five days before penalties will be enforced but at the expiration of that time, the city will proceed against all property on which there had been no payment.

The extension of the limit for enforcing the payment of taxes also extends the time for the advertisement of sale of lands thus affected, which will be about two months from the time which the law now specifies such advertising should be done.

Another Ordinance Passes.  
The other ordinance, which permits the return of all city property to the tax rolls, and which is taxed but eight per cent, with a waiver of all penalties, was also read the third time at the Friday special meeting, and passed.

## TO DEMONSTRATE CHERO COLA DRINK

Chero Cola Fleming, better-known throughout the south as Mysterious Fleming, is in Pensacola in the interest of this popular drink and has arranged for a demonstration, beginning this morning at Kress' store, to which the public generally is invited.

Mr. Fleming has arranged for the serving of this drink in the future at all soda fountains of the city. Chero Cola has become famous during the

## BETTER STORAGE BUILDINGS WILL CONSERVE FOOD

SPECIAL TO THE JOURNAL.

Chicago, Ill., June 15.—In an appeal to lumber dealers to help the farmers of the country build proper buildings and thus conserve food-stuffs by preventing its spoiling due to improper housing, the National Lumber Manufacturers association through E. A. Sterling, manager of the Trade Extension department, has made this declaration:

"Increased grain and live stock production is essential in the present national emergency, and this is the time to urge upon farmers the erection of suitable hog houses, and protection of farm implements, as well as the erection of granaries and other farm structures on model lines. This is the first step toward preventing waste, the preservation of a crop once harvested."

This statement of the need of the farmer as it applies to the retail lumber dealer has been sent to thousands of retailers in all parts of the country.
